Have a go at writing your **own** biography

Pick a partner, question them about their life and write down the answers. Collect as much information about that person as you can.

Ask the following questions:

- Where were you born?
- In which year?
- Where do you live?
- Who is in your family?
- How do you get to school?
- What is your favourite subject?
- What games do you like?
- What music do you like?
- What is your favourite food?
- What do you want to be?

Think of other questions you can ask. You can then write all your answers in the form of a story.

All the people in this series of biographies have been through various experiences. Happiness, jealousy, fear and excitement are just some of the emotions they feel.
